

Pre-Appointment Guide

PICTURES

Gather a range of pictures of the style of the dress you can imagine yourself getting married in. Ask yourself. What style of dress is best for my shape, size, theme, venue etc.

BUDGET

Think about how much you could spend on your dream dress. Ask yourself is there anything you could compromise on in order to buy the dress of your dreams?

TIMING

We advise to come around a year to the wedding date as dresses take approx. 6 months to arrive and styles of can be discontinued which can be a problem if you come too early.

Use Pinterest or our website to help you envisage how you want to look on the big day and bring as many examples as you can to your appointment so we can guide you in the right direction.

Our price ranges for each designer can be found on our website.

Average price is £1500.

We only need 1/2 of the total cost for your deposit to order your dress and offer payment plans to spread the balance.

Its key to have the right people there for your appointment. Who do you need there in order to make that important decision? We often say less is more but make sure they are present in some form (in person, facetime, phone call) for when you say #YesToTheDress
